Navy Hospital is currently not allowing students because they are not essential under COVID regulations. - The current request is outside of the normal training process and Ms. Leipheimer just wanted to make sure the Board is okay with students who have already graduated trying to fulfill 40 hours over the summer. - The Board agreed that this doesn't violate any rules of the Board and they look forward to the students successfully going through the program. 	F. QUESTION FROM COMMUNITY: ENDORSEMENT AND RENEWAL 1. If we have individuals who are Endorsing to Guam (i.e. between May and September), historically will they have to renew again? - Answer: Yes. - The cutoff day in the past has been June. If approved in May, prior to June, they have to renew. - If approved from June to Sep, they don't need to be renewed. 2. Now that we have more applicants, who are multi-state license holders, they come to the island not realizing GBNE is now part of the compact and they apply for a single state license. What should the Board do? Should the Board waive the requirements for the single-state license application? Should the Board notify them of the multi-state license compact and allow them to move forward with the single-state license process if they want to? - The Board recommended applicants continue to submit everything required on the checklist of the single-state license application if they move forward with this process. - The Board also recommended identifying the applicants and giving them notice about their multi-state license. - The Board also discussed adding a question on the applications for example, "Are you a multi-state license holder?" to prompt and bring up this information from the start. - The Board also looks forward to adding this information on the new website.
