After review of Amendments I and II, GPA indicated the laptop configuration contain 2 thunderbolt ports and 2 USB-C ports. GPA cited the Dell Latitude 5540 and the Hewlett Packard ProBook 440 as reference. Bidder No.: 3 has researched these models and their variations. Neither model contain this configuration in their product line. We have also checked with other laptop manufacturers for this configuration and we have not yet found a laptop that meets this configuration. Would GPA accept a Laptop with the following Ports: 2x Thunderbolt 4 supporting DisplayPort, 1x USB 3.2 Gen 1 with power off charging, 1x USB 3.2 Gen 1?
