INVITATION FOR BID GSWA-009-25 DIESEL ROLL-OFF TRUCK

Questions and Concerns received from Mid Pac Far East On May 21, 2025

1. Chassis: Peak HP at 500, Continuous is 310HP, Braking system is Regenerative
These are all options for an Electric Vehicle, not Diesel-powered. MPFE recommends removing them from the specs.

Response: Refer to Amendment No. 2

2. Hoist: Single Winch, Autofold air assist ICC Bumper
Palfinger uses a single reeving cylinder for cable extension/retraction. (winch is old technology) Palfinger uses a patented auto-fold bumper that doesn't require assistance. (air-assist is old technology) See attached Palfinger Brochure. We request you amend the specs to reflect these changes.

Response: Refer to Amendment No. 2

Irvin L. Slike,
General Manager
