- 1. Question:** MCOG's response to DMR question 5, states "The MCOG requires a USB Dock that will support USB-A, USB-B, and USB-C." USB-B connections on laptop docking stations have been phased out by major original equipment manufacturers (OEMs) in favor of USB-A and USB-C connections. Will MCOG accept a docking station without a USB-B port?

Response: The MCOG will accept a docking station that supports any and all updated versions of USB ports available.
