**QUESTION:**

4. What is the approximate size of the current websites (storage, databases, media)?

**ANSWER:**

Regarding disk resource: Current allocated resources for paygpa.com and gparebates.com combined with multiple retention backups, is over 8TB.

**QUESTION:**

6. Can GPA provide documentation on the current hosting architecture, infrastructure, and third-party services currently supporting the GPA websites?

**ANSWER:**

Current architecture is completely customized – a custom solution by GuamWEBZ while working with other GPA's vendor(s).

Main (public) service which is running on paygpa.com is handled through reverse proxy.

Backups are stored remotely in multiple locations.

Ongoing backups – custom configuration of servers to have ongoing backups and with multiple retention.

Internal network between all the servers to provide direct access to the database using VPN.

Firewall work is done based on providing high-level security to the server.

Internal micro-services are not exposed to public networks.

Internal check for the VPN connection to automatically restore the connectivity in case of any failure.

All other Terms and Conditions in the RFP package shall remain unchanged and in full force.
