ANSWER:

- b. Yes.

QUESTION:

4. Does GPA require Cisco's SmartNet for these appliances? If so please update bid form to accommodate for this item.

ANSWER:

No.

Bidder No. 5 inquiry dated 6/17/2026:

QUESTION:

1. May we kindly request clarification on GPA's response to our initial inquiry submitted on May 26, 2026? Specifically, we noted that the requirement under Section A.15 (Network Address Translation (NA)) does not appear to be supported by the equipment referenced in the bid specifications.

Question: Please confirm whether all proposed equipment must fully comply with the specifications outlined in this bid. We note that the requirement in A15 does not appear to be supported by the referenced equipment and is not typically a function of an Ethernet switch. This feature is generally handled at the router level.

GPA's Answer: Yes, all proposed equipment shall fully comply with the bid specifications. With reference to item A.15 of the bid specification, Guam Power Authority reserves the right to purchase licensing for the Layer2 switch to enable Layer 3 functionality, as needed. GPA does utilize Network Address Translation (NAT) overload functionality for Port Address Translation (PAT) within its network infrastructure.

ANSWER:

The Switch shall be able to configured with Network Address Translation (NAT).

QUESTION:

2. Considering this, we respectfully request that Section A.15 be reconsidered and removed as a requirement on page 4a of 36. Otherwise, Docomo Pacific May be required to submit a bid indicating "Non-Comply" for this item.

ANSWER:

The switch shall be able to configured with Network Address Translation (NAT).

QUESTION:

3. Additionally, we kindly request an extension of the bid submission deadline to allow sufficient time for review and consideration of the clarification response.

ANSWER:

Refer to **CHANGES** above.

All other Terms and Conditions in the bid package shall remain unchanged and in full force.
