		1. Gurusamy, Inc. DBA: Health Services of the Pacific (HSP). The Chair reported that the facility was inspected by E. Aguon and himself with pending issues being addressed (e.g., labels were not available for inspection). In addition, policies and procedures need to be reviewed for compliance with the law. Pharmacist In Charge (PIC) is Paul Dalmacio. The Chair reported another inspection will be required. Ruth Gurusamy expressed the following concerns regarding the delay in the approval process: a. Policies and Procedure were always available for GBEP review at the business location since it was the company's policy not to provide them to another party. The Chair stated that it is common practice by the GBEP to obtain a copy of the Policies and Procedures to be reviewed and part of the application file; therefore, requested that a copy be provided to the HPLO for GBEP review. R. Gurusamy agreed to deliver a copy to the HPLO this week. The Chair explained that the GBEP does not have a full-time person to handle

		<p>administrative matters, therefore, must rely on the GBEP members, who are volunteers that need to make time to review GBEP matters at the earliest opportunity to meet the monthly meeting requirements.</p> <p>b. In reference to the Inspection Report, R. Gurusamy stated that the labels were available at the time of the inspection; however, the inspection checklist did not specify that it needed to be presented. In addition, she requested a copy of the inspection report and the deficiencies that need to be corrected for the re-inspection. The Chair agreed to provide the PIC with this information to be readied for the next inspection.</p> <p>c. R. Gurusamy requested if an interim approval could be done in lieu of having to wait for August 2022 GBEP meeting. The Chair responded that another physical inspection would be required to include a review of the Policies and Procedures, as part of its due diligence.</p> <p>d. In reference to HSP's application, the Chair stated that HSP had made some changes since submission of the application process that had to be taken into consideration; however, the law requires certain items to be in-place, which were not. R. Gurusamy indicated that the items were present in another room but were not asked for or shown during the inspection.</p> <p>e. In response to a query from A. Mariano, R. Gurusamy indicated that the ATC surface sampling was tested and the ATC certificate was provided to HPLO.</p> <p>f. The Chair stated that it would conduct a review of the Policies and Procedures and conduct a follow-on inspection as expeditiously as possible to support a GBEP decision on HSP's application.</p>
