		IMPRIMIS NJOF, LLC During the meeting, representatives from Imprimis, including Fred Weiss, the Head of Quality, and a licensing specialist named George, appeared before the board to address inquiries related to their licensing application. The company aimed to clarify the status of their licenses and provide updates on pending regulatory matters, particularly with the California Board of Pharmacy and the FDA. The board raised concerns about expired licenses, to which the company responded that an updated file would be submitted, confirming that all licenses are currently valid through		GBEP		Noted

		<p>July 2025. Additionally, the representatives acknowledged the existence of an open case with the California Board of Pharmacy but emphasized that their license was renewed and remains in good standing, with a forthcoming inspection scheduled for early August. They offered to share their detailed response to the California accusations for the board's review.</p> <p>In response to questions regarding FDA oversight, the company provided a timeline of past inspections, including a 2019 warning letter and a series of inspections spanning from 2017 to 2024. They indicated that they have responded diligently to all inspection findings, including five updates submitted following the most recent inspection, and plan to send another update by the end of the month. Notably, they reported a reduction in FDA observations from thirteen in 2021 to five in 2024, with no repeat findings, which they attributed to improvements in their quality system and facility. While they confirmed that FDA feedback is typically limited to acknowledgment of receipt, they anticipate a follow-up inspection in April 2026 and continue to pursue a closure of the 2019 warning letter.</p> <p>When asked about their facility operations, the company clarified that they operate a single compounding and shipping facility in Ledgewood, New Jersey, with analytical testing conducted at a separate lab in Nashville. Concerns regarding the shipment of refrigerated compounded products to Guam were addressed by explaining that only three out of forty-six products require refrigeration and are shipped using validated thermal packaging with ice packs. The company expressed willingness to conduct specific shipping studies to ensure product integrity given Guam's extended transit times.</p> <p>The board members expressed appreciation for the company's transparency and commitment to regulatory compliance but noted a preference to wait for the outcomes of the upcoming California inspection and FDA response before making a final decision on the application. The representatives of IMPRIMIS acknowledged this and committed to submitting additional documentation, including updated licensing records and responses to prior disciplinary actions. Board members conveyed cautious optimism, stating that while Guam's isolation necessitates careful diligence, the company's proactive measures and product offerings are of value. They concluded the session by thanking the company for their cooperation and reaffirming the importance of ensuring patient safety and regulatory adherence.</p>			
VII	New Business	A. EXTENSION REQUEST FOR AUTHORIZATION TO TEST (ATT)	GBEP	0808	
		1. Jennie Ebidag The board reviewed a request from J. Ebidag seeking an extension for ATT. She explained that although she attempted to schedule her NAPLEX examination, all available dates in July were already booked, and the earliest alternative was not suitable. In light of these circumstances, the board granted the extension, allowing her additional time to complete the examination.			Approved Extension to Complete Examination

	<p>10. Cardinal Health 112, LLC dba Cardinal Health M. Gabriel noted that while the application is otherwise complete, it lacks an appropriate inspection report. The only inspection provided was conducted by the Department of Agriculture, which primarily addressed food, vegetation, and vitamin-related aspects rather than pharmacy-specific operations. Given the absence of a valid inspection from the state board of pharmacy, the board decided to table the application until the appropriate documentation from a pharmacy regulatory authority, such as one from Live Florida Pharmacy, is submitted. <i>Motion to Table: M. Gabriel.</i></p>			Unanimously Tabled
	<p>11. The Harvard Drug Group, LLC dba First Veterinary Supply; Expert Med <i>Motion to Approve: J. Sana; 2nd: A. Mariano.</i></p>			Unanimously Approved
	<p>12. The Harvard Drug Group, LLC dba Major Pharmaceuticals; Rugby Laboratories An inspection form had been submitted, but it was incomplete and lacked any accompanying notes or substantive information. The form was also not included in the HFM system, leading to further confusion. Upon review, it was clarified that the document provided was merely a notice rather than a completed inspection report. As a result, the board concluded that the application</p>			Pending Inspection Report
