IV	<p>C. San Nicolas presented the treasurer's report, noting that all expenditure categories remained unchanged from the previous month except for the contractual category, where \$120 was spent, and the miscellaneous category, where \$450 was expended. She informed the board that the treasurer's report had been sent via email. However, revenue data for September 2024 was still pending, and no figures were available at the time. C. San Nicolas further stated that she had not received any licensee data reporting necessary for comparing revenue sources.</p> <p>Board members discussed the need to analyze approved licensee data from September to December to estimate revenues and agreed that compiling the data would enable more comprehensive comparisons. It was noted that renewal periods might influence the figures, and additional data would be required to draw accurate conclusions. By the next board meeting, it was anticipated that the necessary revenue and renewal information would be available for analysis. C. San Nicolas concluded her report and thanked the board members for their attention.</p>	C. San Nicolas	1216	Approved. Noted

	<p>Dr. Balajadia addressed a question from the board regarding conditional approvals for incomplete applications submitted in October. She clarified that applications missing components, such as continuing education hours, could receive conditional approval in November. Board members discussed the implications of conditional approvals, emphasizing the importance of ensuring that applications submitted by December 31 are processed without unnecessary delays. It was agreed that applications turned in after December 31 would be considered late and reviewed at the next meeting.</p>			Noted
	<p>The board noted that applicants had been reminded since September 1 to submit their materials and discussed whether incomplete applications should automatically be tabled or approved conditionally. One member explained that conditional approvals are issued to avoid additional meetings and ensure that applications submitted before December 31 could be processed efficiently. The discussion also highlighted specific issues with ethics hours, a new requirement being implemented for the first time, which may have caused confusion for some applicants.</p>			
	<p>The board concluded that applications submitted by December 31 with pending items, such as continuing education documentation, could be conditionally approved, allowing them to avoid placement on a future agenda. HPLO staff were commended for their diligence in notifying the board when pending materials were received, enabling timely acknowledgment of applicants' compliance.</p>			Unanimously Approved
	<p><b>E. Visiting Volunteer Veterinarian for SNIP</b>  Dr. Balajadia reported on the visiting volunteer veterinarian for the SNIP program, emphasizing its significance to the board. She introduced Dr. Finley Baquiera as the visiting volunteer veterinarian and requested a motion to approve this appointment.  <i>Motion to Approve: Dr. Balajadia; 2nd: Dr. Harper</i></p>

## Proposed Issuance of Underground Injection Control System Operating Permits for Lotte Hotel, Guam

Public Review and Comment Period: January 9, 2025 - February 7, 2025

The Guam Environmental Protection Agency (Guam EPA) runs the Underground Injection Control (UIC) Program, as mandated by the Safe Drinking Water Act, and approved by U.S. EPA.

The Agency regulates all applicable activities as set forth in the Guam's UIC Regulations. The UIC Program requires operating permits for all existing injection wells/systems. This includes wells built prior to the approval of the regulations are still in operation, and wells/ systems constructed after the effective date of the regulations.

Guam EPA has received renewal applications from Lotte Hotel, Guam for twenty (20) injection systems located at Gun Beach Road, Tumon. The hotel has stores, restaurants, offices and subsurface drainage systems at parking areas.

On the basis of a preliminary UIC requirement review, the Administrator has proposed issuing UIC permits to allow discharges of stormwater runoff into the injection systems.

The discharges contain stormwater runoff only. No industrial discharges or any discharges are allowed into the systems.

The permits for these applications will require:

- 1 - Only stormwater runoff to be discharged into the injection systems
- 2 - Semi-annual monitoring of water quality for MBAS, Oil and Grease, NO3-N, Endrin, Lindane, Toxaphene, 2, 4-D, 2, 4, 5-TP Silvex, Heptachlor, Methoxychlor, Lead, Benzene, Ethylbenzene, Xylene, Toluene, MTBE, Boron, COD, and pH;
- 3 - Assurance regarding repairs, replacement, or abandonment of the well/systems in the event of failure;
- 4 - A laboratory analysis report of runoff water taken from the designated sampling point of the systems; and
- 5 - Compliance with other UIC requirements.

A copy of the Draft Permits and Permit Applications for the above applicant and all other supporting documents are available for public inspection from 8 a.m. until 5 p.m. Monday through Friday at the Water Resources Management Program Section of the Water Division, Guam Environmental Protection Agency, located at 17-3304 Mariner Ave., Tiyán, Barrigada 96913.

For more information, contact Ms. Susan Marquez, at (671) 300-4778 or (671) 300-4751.

Written comments on the draft permits may be hand delivered or mailed to the address below. Comments must be received by Guam EPA no later than 5 p.m., Friday, February 7, 2025. No fax submittals will be accepted.

Administrator  
Guam Environmental Protection Agency  
17-3304 Mariner Avenue  
Barrigada, Guam 96913

If there are no appeals, the Draft Permits become final. Operation of the injection well/system identified by the applicant may proceed subject to the conditions of the permit and other applicable legal requirements.

The final decision to set conditions and issue the final permits or deny application for the permits will be decided after all comments have been considered. If no comments are received within the 30-day waiting period, the final permits shall be issued immediately after the commenting period closes.

Please bring this information to the attention of all persons who may be interested in this matter.
