October 8, 2025

**Temporary Closure of the Northern Region Community Health Center Due to Low Water Pressure**

Hagåtña, Guam – The Department of Public Health and Social Services (DPHSS) announces the temporary closure of the **Northern Region Community Health Center (NRCHC)** in Dededo today due to low water pressure affecting operations.

DPHSS has been in contact with the **Guam Waterworks Authority**, which has identified and is actively addressing the issue. Once water service is restored, an update will be provided on the reopening of the site.

At this time, DPHSS staff are contacting clients with appointments scheduled for today to **reschedule or provide alternate site options** where applicable. Staff are also temporarily relocating to continue supporting essential services.

The NRCHC houses several DPHSS programs and services, and all affected clients will be notified of rescheduling details by their respective program teams.

DPHSS appreciates everyone's time and understanding today as restoration efforts continue. Updates will be forthcoming once the facility is ready to reopen.

For more information and the latest updates, please visit the DPHSS Facebook page (@guamdpshs) and Instagram (@dphssguam).
