Water Service Restored at the Northern Region Community Health Center

Hagåtña, Guam — The Department of Public Health and Social Services (DPHSS) is pleased to announce that **water service has been fully restored at the Northern Region Community Health Center (NRCHC)** in Dededo. The site has **resumed normal operations** as of today.

DPHSS thanks the Guam Waterworks Authority for their prompt response and resolution of the issue, as well as the community for their patience and understanding during the temporary closure.

All **DPHSS programs and services** based at the NRCHC have resumed regular hours, and clients whose appointments were affected will be contacted by staff for rescheduling if needed.

For more information and updates on DPHSS programs and services, please visit the DPHSS Facebook page (@guamdphss) and Instagram (@dphssguam).
