FOR IMMEDIATE RELEASE
Hagåtña, Guam — May 7, 2026

For many families working toward recovery, the hardest step is often knowing where to begin. The Guam Housing and Urban Renewal Authority (GHURA) is helping to clear that path by connecting homeowners with the tools and resources needed to move forward. GHURA invites the community to utilize its newly opened **Housing Recovery Application Center (HRAC)**—a self-service computer lab designed to support prospective applicants for its “Fix in Six” housing programs.

The center provides access to computers, internet service, and scanning equipment to help residents complete and submit their applications with ease. The HRAC is open Monday through Friday, from 10:00 a.m. to 4:00 p.m., and is located on the second floor of the Agana Shopping Center (former GameStop location). Walk-ins are accepted, with the final check-in at 2:00 p.m. Extended hours may be considered based on community demand.

The opening of the HRAC coincides with the soft launch of **Housing Program 1: Guma Na Maolek (“Make Homes Good”)**, which began accepting applications on April 30, 2026. As the first of six programs under GHURA’s “Fix in Six” initiative, Guma Na Maolek focuses on assisting eligible homeowners with repairs to residences impacted by Typhoon Mawar.

Residents are encouraged to apply even if they are unsure about their eligibility, including those who believe their household income may exceed program limits. Completing an application is the best way to determine qualification. Applicants who have reliable internet access are also encouraged to apply online for the fastest and most convenient experience. The online application portal is available at guamcdbgdr.org, and a valid, active email address is required to complete and manage an application.

GHURA is committed to ensuring wide access to its programs. Reasonable accommodations are available upon request for persons with disabilities to support full participation in the application process. For additional information about this program or upcoming CDBG-DR housing initiatives, please visit guamcdbgdr.org/programs/housing. Housing-related inquiries can be sent to housing-dr@ghura.org

-END OF RELEASE-

For additional information, please contact: Tyler Mortera, Guam CDBG-DR Public Information Officer, at tmmortera-dr@ghura.org

CDBG-DR funds are provided by the U.S. Department of Housing and Urban Development to support long-term recovery efforts in communities affected by natural disasters. In January 2025, GHURA was designated to manage \$500.8 million dollars in CDBG-DR funds to help low- to moderate-income (LMI) households recover from Typhoon Mawar. Over the next six years, Fix in Six will help LMI communities by supporting affordable housing, improving public infrastructure, creating economic opportunities, and strengthening mitigation efforts.
